

We all know we need to change our behaviour and be a bit greener in everything we do.

The best way to address environmental problems is to make sure the solutions have exceptional appeal, innovation, style, convenience and practicality.

We live within walking distance of local shops and urban markets, but walking back with heavy bags isn't practical. DezineCorp offers a convenient, stylish and greener alternative to lugging grocery bags, laundry, school books or sports equipments around.

These multi-functional trolleys have a sleek modern 'dezin' that provides extreme stability and durability. The large wheels and high handle make it very easy to maneuver.

Branding has never been easier with DezineCorp's iDezine decorating process. True full colour process allows you to be as creative as you wish. No more limits, just pure results!

### Urban Market Trolley

The ultimate reusable shopping bag! Made with 100% microfiber polyester. Featuring drawstring closure, side water bottle carrier (water bottle not included) and 2 integrated back pockets. Conquer your Urban Markets in style and comfort.

## The **ULTIMATE**

ANOTHER FIRST FROM THE  
**DEZINECORP**  
HYDRATION COLLECTION

The 'ULTIMATE' in style, environmental awareness & health! Glass is 100% reusable, recyclable and BPA free.

7.69	7.46	7.15	6.92

The market is full of water bottles. Along with them, an array of questions: does the aluminum leech? Is BPA dangerous? What is the grade of the stainless steel? Does the bottle smell? Is there an aftertaste? Am I SAFE?

Meet THE ULTIMATE from DezineCorp's Hydration Collection. Made from glass. The Ultimate is a blend of fashion and utility. Odorless. Free from harmful contaminants. A blend of 3,000 year old common sense and 'dezin'.

Proper hydration guidelines suggest we drink 8 to 10 glasses of water per day. If we used the 20 oz Ultimate glass water bottle to replace the 4 to 5 plastic bottles or water cooler cups per day we would be keeping about 1,800 pieces of plastic out of the landfill a year - for every bottle used.

When the Ultimate is used in a promotion of any kind it delivers the messages; that the advertiser cares about the recipient, cares about making a little bit of a difference everyday, and wanted to give a product that will be valued, cherished and used again and again delivering the message, delivering the brand.

Available from authorized distributors for as little as \$7.00
